

Our Covid-19 Position Statement

We are thrilled to have all 57 of our team members hard at work each day. Knowing hospitality is one of the hardest hit sectors of the workforce, **it was extremely important to us to get our team back to work as soon as possible. So you may be wondering** what are they all doing? The answer is they are all working in their respective departments, deep cleaning, sanitizing and sanitizing again. Our hotel, which has won awards every year of its existence for cleanliness, is even more immaculate!

Our food and beverage and catering team have developed seating and reception charts to respect social distancing in any format. Our chef continues to source only the freshest fruits, vegetables, fish, poultry and beef every day. Our extra large outdoor lakeview seating and firepit area provides the perfect spot to sip a cocktail while perusing the wildlife.

Jump in for a swim after working out in our fitness center, as attendants clean and sanitize the machines every hour, and our engineering team assures proper chemical levels in our pool throughout the day.

When you are ready...we are MORE than ready to provide you a safe, comfortable haven to relax and unwind, or a unique event and meeting venue, unlike any you have seen before.

Our 57 team members count on it!
